Genesee Valley Historical Reprint Series: Jointed Toy Patterns: Book 2

Long before magnetic “paper” dolls and interactive walking, talking baby dolls, there was Bess Bruce Cleaveland’s Jointed Toys. Filled with patterns to be copied, enlarged, assembled, and decorated (whether in paper or wood), Cleaveland’s two-volume set offered potentially hours upon hours of make-believe fun for children in the early 20th century. The books provide explicit directions in general for copying and assembling the patterns as well as specific instructions per pattern for coloring and/or making extra copies of a toy part. The jointed toys include duos (e.g., clown and donkey), seesaw duos (e.g., Mary and her Lamb, two jolly pigs), familiar animals (e.g., dog, goat, rooster, tiger, zebra), famous figures like Santa Claus, and characters from legendary Mother Goose nursery rhymes—Wee Willie Winkie, Humpty Dumpty, and Boy Blue are among the most common; Daffy-Down Dilly and Polly, Put the Kettle On may be less familiar.

This work, first published in 1918, is reprinted by Milne Library at the State University of New York College at Geneseo as part of the Genesee Valley Historical Reprints series. The Genesee Valley Historical Collection is Milne Library’s largest and most accessible collection of local history materials. Its geographical scope covers the eight counties surrounding the Genesee River in New York State: Allegany, Genesee, Livingston, Monroe, Ontario, Orleans, Steuben and Wyoming. The Genesee Valley Historical Reprint Series is an effort of Milne Library, SUNY Geneseo.

Directions for Using Patterns

These Jointed Toys may be cut with scissors from heavy construction paper or light card board, or with a jig-saw from thin pieces of wood.

Place carbon paper between the pattern and material to be used in making the toy, and trace each part of the pattern carefully.

Hectographed copies may also be made and each child given one to outline, cut and assemble.

These patterns may be copied, enlarged or reduced by the use of a pantagraph.

In copying the Mother Goose toys, "Tom, the Piper's Son" and "Tommy Tucker," trace the patterns for the pig and the musical instrument from the completed figure.

Join the parts together as shown in the completed figure.

For the paper toys use small round brass paper fasteners to join the parts together. In the absence of fasteners cord may be used by knotting it on each side of the design.

In the wooden toys fasten the parts together with round-headed screws. Do not screw the parts together too tightly.

Coloring directions will be found at the top of each page.

An attractive border for the school or playroom may be made by showing the animals in different poses.
